**Be a Modeler: Profile Instructions**

To sign up to become a modeler listed in our database, click on the “Find a Modeler, Be a Modeler” image.

From this page you can go the search page (Find a Modeler button) or you can choose to sign up, get an account, and list your profile information in our Find a Modeler Database.

Fill out this form. Within 24-48 business hours, you will receive an email with your login information. The email will be from WordPress with the subject title, ”Login Details.” Please check your SPAM folder if you do not show the email in your inbox.
Follow the email instructions to sign into your newly created WordPress account. Once you are signed in to your account, locate the FAM menu on the left side of your screen and select “Add Profile”.

Enter your full name to be displayed in the Title bar and enter your information. Select the affiliations and application areas that best match your field of study/expertise.

To enter the type of modeling you do, start typing in the box (red highlight). A list of potential types will populate, and you can select one or more. If you do not see the type of modeling you do, select the plus icon (yellow highlight) on the very right side of the field and enter your type.
Once you have completed the form with the data you want to display, you can save it as a Draft (not published) to finalize at another time. Or, you can select the Publish button and your profile will be published in our database and on the website.

The URL of your profile will be: https://imci.uidaho.edu/fam/first-last

If you need to update or delete your profile information, you can login with your credentials at this URL: https://imci.uidaho.edu/wp-login

If you have forgotten your password, use the lost password link on the login page.

Any questions regarding your profile, access or the FAM Database, contact Lydia Stucki (lydias@uidaho.edu)
